

HYBRID COMPRESSION SPRING 1G (CNT1HBG)

The Hybrid Compression Spring 1G combines a compression spring and a ratchet tensioner all in one. The compression spring will maintain the tension of the fence wire and the ratchet tensioner can be used to increase the tension as and when required over time.

Features:

- Heavy duty durable design
- Combination of a compression spring and a ratchet tensioner
- Hardy glass filled nylon spindle
- A nylon plastic inner which eliminates galvanic reaction between dissimilar metals, reduces rust and increases the lifespan of the wire
- Can be used with any type of electric fence wire
- Standard tension spring (silver) which can tension up to 1.2mm wire
- Stainless steel spring maintains constant tension on the fence
- Tensioned with a 1/4inch ratchet

Specifications:

Material	Stainless Steel
	UV stabilised plastic inner with glass filled nylon spindle
Colour	Black
Spring Tension	Standard 5kg
Operating temperature	-40 to 80°C
Operating voltage	0 - 12KV
Recycling	SPI 7

Stock Code	Description
ES-CNT1HBG	Hybrid Compression Spring 1G (CNT1HBG)
