

Products returned as listed below will no longer be under warranty:

- Any physical damage to the product
- Any burn marks on the product
- The goods have been installed, damaged or modified in any way
- Electrical power plugs been removed/replaced or cut off.
- Warranty seal or product barcode is altered, broken or missing
- Merchandise destroyed by improper operation or returned incomplete
- If items or packaging have been marked or written on
- **Items struck by lightning or damage due to a power surge**

The units has a 1 year warranty, if any of the above have been displayed the warranty is void.

If any damage has accrued, this will need to be returned and seen to by our technicians.

A report will be done. If this is **surge damage** or any of the above mentioned, the warranty no longer stands. A fee will be charged to restore the unit (if this can be restored) and any additional parts would need to be paid for by the purchaser.

Please be aware that no items with an element can be plugged into this unit. An image has been attached below to show you what could be used on this inverter.
