

Technical Data Sheet

CRAMOLIN® SCREEN TFT Art. No. 143

Product description

Screen TFT is a very active foam cleaner for TFT/LCD displays, Plasma and PC screens, mobile phones, PDAs, camcorders, touch-screens and GPSes.

Screen TFT removes all kinds of dirt and dust.

Screen TFT affects antistatically and contains no abrasives. The solid foam doesn't descend on vertical surfaces.

Application

Can to be well shaken before use. Small quantity to be put on screen and to be cleaned as long as foam is in solid state. May be sprayed on a wipe.

Please note

Electronical devices to be switched-off during cleaning and plug to be taken out.

Cleaning instructions of appliance producer to be taken into account.
