ELECTROMAGNETIC LOCKS

With hundreds of thousands of units sold, our locks have proven to be robust, aesthetic and extremely reliable. Excellent price/performance is a feature of the entire range.

All the locks have status monitoring and are suitable for indoor/outdoor use. The locks are supplied with a connecting cable, making weatherproof connections simpler.

175Kg, 300Kg and 500Kg holding force versions are available. Universal mount and mortice mount maglock versions are manufactured. The locks can be ordered with end, side or rear cable exit.

The maglocks are equipped with internal quick-release electronics.

The maglocks carry a 2 year warranty.

A range of mounting brackets are available to suit most installation requirements.

POWER LED OPTION
