

## Aqara Wireless Mini Switch T1

The Aqara Wireless Mini Switch T1 is a remote-control switch with a compact design and low energy consumption. You can place or stick it almost anywhere. Single press, double press, or long press to control various smart accessories, such as, Smart Light and Smart Plug.

- **Designed to Fit Everywhere:** No wiring required. The minimal design allows you to place it anywhere or attach it to a surface with a sticker.
- **Multi-Ecosystem Support:** After binding it to an Aqara hub, the sensor can be exposed to third-party platforms, such as Apple Home and Matter. Moreover, it can be natively integrated with Samsung SmartThings and Yandex Smart Home.
- **Aqara Home Automation:** You can customize different scenes with our suite of smart home products.
- **Works as a Smart Doorbell:** Wireless Mini Switch can be used as a doorbell when combined with the Aqara hubs equipped with speakers. You can also customize the ringtone through the Aqara Home app.
- **Works as an Emergency Button:** The Wireless Mini Switch can also act as an emergency button at home. When pressed, Aqara Hub will send out a push notification and sound the alarm.
- **Advanced Technology:** Aqara Wireless Mini Switch supports up to 50,000 presses\*. Adopts V-0 grade flame-retardant PC panel that allows for high-temperature resistance.
- **(NEW) OTA Update Support:** Compared to the original Mini Switch, the T1 model has got an OTA update support, which has enhanced their stability and functionality.
