

MyNice Smartgo

Smart Access. Infinite Possibilities.

Upgrade your access automation products with the MyNice Smartgo system. Featuring the MyNice Smartgo device with Wi-Fi and Bluetooth connectivity, it automatically integrates with the app and the intercom plate to provide **smart, secure and convenient** access from anywhere.

Take control of your world™...
**from anywhere
in the world**

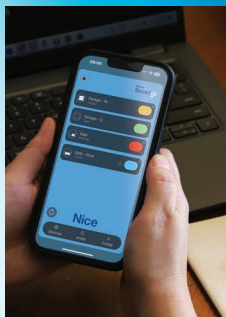

1 Install the device

2 Download the app

3 Add your intercom

SCAN
to find out more

How to set up:

- 1 Install the MyNice Smartgo device on the product you want to control.
- 2 Install the app, follow the simple registration steps and claim the unit.
- 3 Connect to your intercom (sold separately).

You're good to go!

After installation you can add users and assign access permissions based on their roles or needs. Retrieve access logs to stay informed and enhance security. You can even change the individual button colours in the app to mirror your Nice Blu Mix™ remote.

Wifi and Bluetooth connectivity

Integrated intercom functionality

FREE subscription tiers available for device and intercom

App interface similar to Nice Blu Mix™ remote

Compatible with other access automation brands

Manage multiple users and easily share access securely

Easy installation and enrollment

Receive status and alarm notifications*

* Feature only available if connected to selected Nice products.
