## Access Control & Time and Attendance Reader

The STINGER is an IP 65 rated outdoor reader with fingerprint, RFID card and pin password functionality. Ideal for medium to large businesses with a user capacity of 3000. The STINGER can do a basic one door access control application or if configured with the Amatec WOLF controller it will have a fully functional access control system. Typically used for outdoor or indoor applications i.e. townhouse complexes, turnstiles.

The STINGER is bundled with our basic Mi-Time Lite time and attendance software application which can be upgraded to Mi-Time Premier for a full detailed time and attendance application.
