

LED RGB MINI AMPLIFIER is a brand new RGB LED strip amplifier, It makes long LED strip implementation much more conveniently. The slim design make it easy to install together with strip or cables even in a very narrow space. Its output power is up to 144W and built with wrong wiring protection. R103 is your best choice in LED strip amplifiers.

Smallest LED amplifier
 Simple installation
 Specified strip connector
 High Efficiency, low heat
 Wide working voltage

Up to 144W power
 Embedded control IC chip
 Wrong wiring protection
 Infinite cascading ability
 Competitive price

Output Power	144W
Working Voltage	DC 8-16V
Max output current	3x4A
Working Temperature Range	-30°C~+75°C
Connector type	Specified Strip Connector
Dimension	42x13x3 (mm)
Net Weight	5.2g
