Secure Your Home Around the Clock

After putting AirLive IoT devices on the proper location, you can control every situation whenever you are.

Secure your home 24/7

With the built-in siren the SG-101 can warn you when a sensor is triggered. This can be a Alarm from a PIR, Door/Window sensor or a Macro you setup separately to inform you of a certain situation. The camera will provide continues live-view and also record to your mobile / storage / camera SD card.

Convenient Lighting Control

As the main controller of your Smart Home system the SG-101 in combination with the In-Wall switch and dimmer can control your lights. Turn your lights on before you arrive home or turn them off when you are in the office. All is possible using the AirLive SmartLife Plus App and the SG-101. Dim your lights when watching TV with the push of a button or via Voice Control.

Operate your Home using your Voice

The AirLive SG-101 Gateway supports Voice Control with Amazon Alexa and Google Home / Assistant. Using the AirLive SmartLife Plus App you can make scenes which can be controlled via your Voice. For example turn your lights on by saying "light on" or say "close curtain" and automatically your curtain will close. Voice control will make your life easier.
