

Description:

High conversion rate, high efficiency output

Remarkable effect of weak light

The mining height are broken light transmittance high quality toughened glass

Unique technology makes the component beautiful strong wind resistance, installation is convenient

Unique technology to avoid water accumulation in the frame freeze and deformation

Operating voltage: 6 v

Power:3.5W

Work: current 580-600mA

output's 2.0Net weight: about 100g Size: 165 * 135 * 2 mm

Applications:

Suitable for: digital products charge ,phone MP3 MP4 PDA Tablet

Package included:

1xsolar panel USB Solar Battery Charger

Note:

This device cannot store electricity, but only can charge Ur cell phones in the sun. And this item must under the strong light, otherwise the voltage is very small and many smartphone have Battery protection maybe can't charge it. Phone is not included.
