

Wizord 4i

The Wizord energizers have been field tested for many years and boast unsurpassed reliability. Simple to install and easy to maintain.

Features

- 3.7 Joule output energy (single zone)
- Robust and flexible design for home and commercial security
- Built-in alarm monitors tampering or faults on the high voltage and earth fence wires
- Connectable to armed response radio or GSM module
- Lightning and power surge protection
- Intelligent power saving to extend battery life
- Easy-to-use tag included for controlling the energizer
- Powered by 240V mains and includes built-in battery for back-up power
- Built-in gate alarm input to monitor if the gate is open or closed

Specifications:

Enclosure size: L285 x W212 x D120
 Weight excluding battery (7AH): 3.1kg
 Weight including battery (7AH): 5.3kg
 IP rating: IPx4
 Operating temperatures: -10°C to 50°C
 Operating humidity: < 80% non-condensing
 Electrical supply voltage: 240V
 Typical power consumption (normal operating conditions): 18VA
 Standby time (fully charged battery): 24hrs
 Energy output 500 Ohms load: 3.7 Joule
 Open circuit voltage: 8 000V
