## TECHNICAL INFORMATION

### Specifications:

Number of Tunes:	16
Signal Range:	60m
Batteries (Receiver):	1 x 3V coin battery CR2032 (included)
Batteries (Transmitter):	3 x 1.5V AA (LR6) batteries (not included)

### First time operation

After battery installation on the push button and door chime units, press the push button once and it will generate a new operation code randomly and send a wireless signal to the door chime receiver. The receiver will sound to indicate that the new operation code is registered and memorised.  
(Please note, this operation should be done every time when there is no power or when batteries have no more charge left and need to be replaced.)

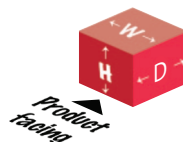

### Battery requirements

Remote control - 1 x 3V Li coin battery (CR2032) supplied.  
Door chime - 3 x AA batteries (LR6) not supplied.  
Mounting screws and high tack tape included.

## CONTENTS

- 1 x Transmitter
- 1 x 3V Li coin battery (CR2032)
- 1 x Receiver
- 1 x Mounting screws and high tack tape
