

Projector Mount

Aluminum Ceiling Projector Bracket

PROJECTOR BRACKET CEILING MOUNT

360° rotating with dual height options

The **TVARMPRO1** is an aluminum ceiling brackets for most projectors up to 10kgs. 360° rotating and 15° tilting allows multi-angle projection. It offers flexible projector positioning with three support arms that can fit a wide range of mounting holes. The quick release connector allows the projector to be installed quickly and then easily released for maintenance, without re-alignment. Two different tubes included for different height needs.
