

VDA16X2

16 CHANNEL COMPOSITE VIDEO DISTRIBUTION AMPLIFIER

The VDA16X2, 16 channel composite video distribution amplifier, is designed to distribute 16 real-time monochrome or colour CCTV camera images to 2 other devices per input.

- ▶ Superb CCTV colour image quality
- ▶ Reliable and robust

Technical Specifications:

Video Input

- 16 female BNC connectors
- 1 Volt p-p, 75 Ohm

Video Output

- 2 female BNC connectors per input channel
- 0dB gain
- 1 Volt p-p, 75 Ohm
- Greater than 25Mhz frequency response

Power

- Voltage input: 220Volt AC
- Panel mount male kettle socket
- 3 pin 16A RSA male plug to female kettle plug power cord supplied

Mechanical

- Length - 19 inch rack mount
- Height - 88mm
- Width (including connectors) - 168mm
