Low-power Intelligent WIFI DOORBELL

Product Name	Specification			
Chippest 720Z WIFE AMM-NETPSM/WIFE 24GHz, 1998-1902.11b/g/n PRE Dictance 10 merces 1 SD Card Storage 5 Support Max 120G LED 6pes Edition 1 Dictribution network 6 Account distribution network 7 Valee 7 Fe card (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Peab Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording 7 Pearl Massage Pub In 15 Pearl (10 seconds cach time, can be set), support mabile phone local recording, device recording, Cloud recording, device remains, and the page 10 seconds recording device remains, and the post recording device remains, API on the recording device remains, API on the results of the matter. Function Function Function Function Function Fun	Model NO.		XY WIFI SMART DOORBELL IC2	
WIT	Product Name		Low-power Intelligent WIFI Camera	
FIRE Distance 50 Card Storage Singnor Max 128G Storage Singnor Max 128G Batto Batto Batto The control Light Batto The control Light Batto The control Light Acoustic distribution network The cond (10 seconds each time, can be set), support mubble plane local recording device recarding floud recording Pash Massage Pash in 15 File motion detection, high sensitivity / medium / low level adjustable Store 1/25f File motion detection, high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable Store 1/25f File motion distribution high sensitivity / medium / low level adjustable 1/25f File motion distribution high sensitivity / medium / low level adjustable 1/25f File motion distribution high sensitivity / medium / low level adjustable 1/25f File motion distribution high sensitivity / medium / low level adjustable 1/25f File motion distribution high sensit	Chippest		T20Z	
Support Nata 128G	WIFI		AW-NB197SM,WIFI 2.4GHz ,IEEE802.11b/g/n	
Indicator Light Blue Refinant IR LED, 19 meters IR Distance Indicator Light Blue Refinant IR LED, 19 meters IR Distance Blue Ref Distribution network Accessive distribution network Video TF card (10 seconds each time, can be see), support mebile phone local recording, device recording/Cloud recording Push in 1s Motion Detection PIR motion detection. high sensitivity / mediant / low level adjustable Fig. Boston Resolution 1720*11000 Since 1729* Focal Length Lens Perspective Dapond 135* Bonna MIC Support, sound capture distance > 3 meters Minding MiC Support, sound capture distance > 3 meters Minding MiC Support, sound capture distance > 3 meters Minding MiC Support, sound capture distance > 3 meters Minding MiC Moving Move sup vinice intercom Redo cancellation Down-sup viole intercom Redo cancellation Moving Moving Moving Moving progression Wake-up Method Mobile phone remote voolvoup, PIR wake up Wake up time Solloms Saterral Power Supply Mice USB Ford/DG 50*) Working Current 2000A/3.7V Sanadby Gandby G	PIR Distance		10 meters	
Indicator Light	SD Card Storage		Support Max 128G	
Distribution network	LED		8pcs 850nm IR LED,10 meters IR Distance	
Distribution network Acoustic distribution network	Indicator Light		Blue,Red	
Pesh Massage	Button		Reset Button	
Push Massage	Distribution network		Acoustic distribution network	
Bessor Filter Pilter motion detection, high sensitivity / medium / low level adjustable	Video		TF card (10 seconds each time, can be set), support mobile phone local recording, device recording, Cloud recording	
Image Sensor F23 F23 F23 F23 F24 F25 F24 F25 F	Push Massage		Push in 1s	
Resolution 1920*1080	Motion Detection		PIR motion detection, high sensitivity / medium / low level adjustable	
Size 1/2-9"	Image Sensor	Sensor	F23	
Focal Length 2.0MM Aperture F2.4 Perspective Diagonal 135°		Resolution	1920*1080	
Lens		Size	1/2.9"	
Perspective Diagonal 135° Horn 8n/1W MIC Support, sound capture distance > 3 meters Intercom Two-way voice intercom Echo cancellation Own echo cancellation Howling Howling suppression Wake-up Method Mobile phone remote wakeup, PIR wake up Wake up time <500ms Battery Powered 500msh rechargeable lithium batteries Eaternal Power Supply Micro USB Port(DC.5 OV) Working Current 260mA/3.7V Standby Gurrent 290mA/3.7V Standby Gemonths USB Charge 10 hours full charge Function Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m, with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware Firmware Operating Temperature *10~460 °C Storage Temperature *20~470 °C Waterproof Level Ple66	Lens	Focal Length	2.0MM	
Horn St./1W		Aperture	F2.4	
MIC Support, sound capture distance > 3 meters		Perspective	Diagonal 135°	
Intercom Two-way voice intercom	Audio	Horn	8Ω/1W	
Echo cancellation Own echo cancellation Howling Howling suppression		MIC	Support, sound capture distance > 3 meters	
Howling Howling suppression		Intercom	Two-way voice intercom	
Wake-up Make-up Mobile phone remote wakeup, PIR wake up Wake up time <500ms Battery Powered 5000mAh rechargeable lithium batteries External Power Supply Micro USB Port(DC5.0V) Working Current 260mA/3.7V Standby Gmonths USB Charge 10 hours full charge Function Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature *-10~+60 □ Storage Temperature *-20~+70 □ Waterproof Level IP66		Echo cancellation	Own echo cancellation	
Wake up time <500ms Battery Powered 5000mAh rechargeable lithium batteries External Power Supply Micro USB Port(DCS.OV) Working Current 260mA/3.7V Standby Current 200uA/3.7V Standby 6 months USB Charge 10 hours full charge Function Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66		Howling	Howling suppression	
Power External Power Supply Micro USB Port(DCS.OV)	Wake-up	Wake-up Method	Mobile phone remote wakeup, PIR wake up	
Power Power External Power Supply Micro USB Port(DC5.0V) Working Current 260mA/3.7V Standby Current 200uA/3.7V Standby 6 months USB Charge 10 hours full charge Function Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature *-10-+60 °C Storage Temperature *-20-+70 °C Waterproof Level 1P66		Wake up time	<500ms	
Power Standby Current 260mA/3.7V Standby Current 200uA/3.7V Standby Current 200uA/3.7V Standby 6 months 10 hours full charge 10 hours full c	Power	Battery Powered	5000mAh rechargeable lithium batteries	
Standby Current 200uA/3.7V Standby 6 months 10 hours full charge 10 hours ful				
Standby 6 months USB Charge 10 hours full charge Function Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level 1P66				
USB Charge 10 hours full charge		-		
Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m, with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66		-		
Intelligent Detection Self-owned intelligent detection algorithm to effectively reduce false positives Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66	_		10 hours full charge	
Ultra low power consumption Intelligent power saving, long standby, 5000mA original 18650 battery, normal use 8-12 months Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Opening space up to 100m, with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66				
Simple Distribution Network Device configuration in just 2 steps Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66				
Quick Response Wake up to see images up to 3 seconds, message push within 1 second Remote Transmission Opening space up to 100m, with obstacle up to 30m high quality image Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66				
Remote Transmission Opening space up to 100m,with obstacle up to 30m high quality image The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Others Two-way voice intercom, SD card video query, Cloud recording query,device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66	-			
Super Push Massage The industry's first company can still receive news pushes when APP exits the background, solving the industry's pain points on the market. Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66				
the market. Others Two-way voice intercom, SD card video query, Cloud recording query, device sharing, device transfer, APP online update device firmware General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66				
General Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66	Super Push Massage		the market.	
Operating Temperature "-10~+60 °C Storage Temperature "-20~+70 °C Waterproof Level IP66	Others
